

About the Global Success Club

The Global Success Club (GSC) is an exclusive business-to-business network based in Frankfurt, Germany, whose mission is to support the international, sustainable growth of innovative companies. To achieve this mission, GSC has a variety of offerings that aim to bring all of the players and organizations involved in fostering international growth, trade, and innovation together under one roof. These include:

- » An exclusive **online platform** comprised of forums, blogs, wikis, and other information sources that allow users to engage in dialogues on issues related to doing business internationally. Individual profile pages help our members search for other users based on a specific area of expertise or know-how and to locate possible partners or suppliers. We are also able to supply our members with exclusive, valuable foreign trade and business-related information through our carefully selected partnerships with government agencies, media outlets and other bodies.
- » **Exclusive roundtables and fireside chats** held at our headquarters in Frankfurt, which allow business leaders to interact directly with government officials and other experts in an intimate setting.
- » High-profile international **summits and conferences** that bring larger groups of business leaders, government representatives, and industry experts together in one place for the purpose of sharing experiences, networking, and learning more about conducting business internationally.

The Structure of the Global Success Club

The Global Success Club is broken into **two separate groups of members**.

The Club's core members are innovative, international, business-to-business companies. These are typically mid-sized companies in the manufacturing sector who already have an interest in and a commitment to international expansion. This group is known as the **Inner Circle**. The Global Success platform enables these businesses to connect with each other with the goal of enabling knowledge transfers, business partnerships, and fostering dialogue on doing business internationally in the modern world.

The secondary group is comprised of government bodies, promotional agencies, service-providing firms, and other similar organizations whose skills, expertise and/or services may be of use to Inner Circle members. This group is known as the **Community**. The Global Success Club platform helps businesses connect with the relevant persons, agencies, or organizations that can help these businesses achieve their international goals.

About the Global Success Days

The Global Success Days were formed as an extension of the mission of the Global Success Club. They are a series of events offered exclusively to the executives of innovative, international businesses as a way for them to share their own experiences with doing business internationally, learn from what others have to say, and remain innovative in today's economy. The events feature talks from and panel discussions with experienced executives from international companies, along with input from international experts in various fields. Attendees also have extensive opportunities to network with fellow executives, government officials, and representatives from international organizations.
