INSIGHTS FOR GROWTH IN R&D AND MANUFACTURING

Strategic Investment Summit: USA

Strategic Investment Summit: USA

September 29, 2015
Grandhotel Hessischer Hof,
Frankfurt am Main

As a driver of economic growth, innovation processes are essential. In this era of globalization, more and more firms are expanding their research and development (R&D) and manufacturing investments to other countries in search of a skilled workforce, the ability to customize products for local market needs, and market expansion. Additionally, the companies that invest overseas help stimulate the local economy by creating jobs and promoting the development of human capital through education and knowledge sharing. By working together, overseas manufacturers and local economies both win and grow. Today, nearly 40% of German R&D projects abroad are conducted in the U.S., and approximately 25% of German manufacturing foreign investments flow in the same direction.

Together with SelectUSA and the Consulate General of the United States – Frankfurt, the Global Success Club (GSC) invites senior executives from innovative German manufacturing companies to join our premier one-day interactive forum. This exclusive event will bring together business experts, government influencers, and economic development organizations to facilitate an exchange of experiences and practical information to help you enter or expand in the U.S. market intelligently.

This exclusive event is tailored to the executives of innovative German manufacturing companies that are seeking to ...

- » **Gain new insight:** Whether you are considering to start-up or expand R&D and manufacturing operations in the U.S., this summit will provide you with the latest insight about the benefits and challenges that should be reviewed and understood. Current and relevant first-hand experience will be provided from our expert speakers and partners.
- » **Learn about opportunities and options:** Critical topics that impact R&D and manufacturing investment decisions will be featured such as: patent laws to protect your innovation, tax incentives and capital funding for moving R&D and manufacturing to the U.S., how to use leading education and research institutions as strategic partners and TTIP. Engage in the dialogues to understand options for your specific strategy or investment requirement.
- » **Quickly develop a network of key stakeholders:** Meet and dialogue with key government influencers, research park executives and business subject matter experts in one location to enable you to quickly and easily develop your network of influencers to partner with to ensure you realize the greatest benefits.

Cultivating international connections

by **Volker Bouffier**, Minister President of Hessen

A successful economy forms the foundation for jobs and prosperity. The success of the economy itself rests on many pillars, one of which is global exchange. The state of Hessen therefore places great value on excellent international connections. These connections are important in many areas, such as culture, but it is in the economic sphere that we place particular emphasis on fostering foreign relations. Between the Rhine-Main area and the financial metropolis – Frankfurt, Hessen is among the strongest economic regions in the European Union. The major banks, the stock exchange, the German Bundesbank, and the European Central Bank all contribute to the economic success of our state, as do the numerous manufacturing companies based here, many of which are active globally.

These connections must be cultivated if they are to continue to exist and develop further, and events such as this present the chance to do just that. Such events promote exchanges and offer many opportunities for discussions that open up new perspectives for dialogue partners. For these reasons, I have gladly lent my patronage to this event. My heartfelt thanks goes to those who have helped to ensure that this event takes place. I send my warm greetings to the event participants, who will surely enjoy an interesting program.

A handwritten signature in blue ink, which appears to read 'Volker Bouffier'. The signature is fluid and cursive.

Volker Bouffier,
Minister President of Hessen

Advancing transatlantic cooperation

by **Peter Feldmann**, Lord Mayor of the City of Frankfurt am Main

Germany and the USA are connected through a long and historically matured friendship. An occasional difference of opinion can be overcome by bonds both varied and resilient, and beyond political, cultural and military aspects, it is our two nations' strong economic ties that characterize the relationship.

The success of our bi-lateral relations is strongly supported at a local level as well, with over one hundred town-twinning agreements between German and American municipalities promoting understanding and transatlantic cooperation. Indeed, the cities of Frankfurt am Main and Philadelphia will soon be signing an agreement to become official partners. The numerous similarities between the two cities offer the promise of a vigorous exchange of ideas and activities.

I'm very pleased that the Global Success Club has chosen Frankfurt am Main as its venue for the Strategic Investment Summit: USA. Not only is Frankfurt – with its central location and excellent accessibility – the ideal place to gather top-level decision makers, it is also the most international city in Germany, with a large and dynamic American business community. Vice versa, the USA also offers numerous attractive investment opportunities for German companies.

I should like to thank all those people whose efforts and commitment help to strengthen German-American cooperation. I wish everyone an enjoyable conference, with many new insights and a successful exchange of ideas and experiences.

Welcome to Frankfurt am Main, it is great to have you here!

A handwritten signature in blue ink that reads "Peter Feldmann". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Peter Feldmann,
Lord Mayor of Frankfurt am Main

Agenda

September 29, 2015 – Grandhotel Hessischer Hof, Frankfurt am Main

Voices from the Turkish-German Innovation Summit 2014

Senior executives from some of Germany's and Turkey's top innovative and international firms joined us at the Turkish-German Innovation Summit in October of 2014 to discuss and share experiences with R&D cooperation and to explore future collaboration and investment opportunities. In their own words, here is what some of our distinguished guests had to say about the summit!

"The networking between the stakeholders on the German side and the Turkish side is, specifically these days, really important. I believe that was the biggest benefit from this summit."

Frank Stührenberg,
CEO & Executive Vice President of
Global Sales at Phoenix Contact
GmbH & Co. KG

"This event contributed to our knowledge on R&D cooperations, technology trends, and investment opportunities in both countries. I believe that this event will become traditional and be successfully sustained with the efforts of all parties."

Savaş M. Özaydemir,
President of Endel Group,
Chairman of Board of Eskişehir
Chamber of Industry

"If you pay attention to the participants of this summit, there is really a very privileged group here. I'm happy to be here!"

Cem Kural,
Director R&D of Arçelik A.Ş.

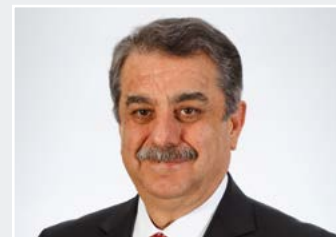

"The open discussion and exchange of ideas at all levels was beneficial to both Turkish and German participants."

Prof. E. h. Dr.-Ing.
Johann Grabenweger,
CSO, Sales & Service of KHS GmbH

"Only if people meet, can a dialogue happen. The content of this meeting, innovation, is very important. It was a very important event to meet individuals, exchange views, and learn from one another."

Otto Bauer,
Chairman of the Board of Festo
San. ve Tic. A.Ş. Turkey

"The value [of the summit] is networking and knowing others' opinions and their views of Turkey and Turkish companies, and how innovation is perceived by Germans."

Prof. Dr. Şener Oktik,
Chief Technology Officer of
Şişecam Group

Register now and secure your spot!

Don't miss your chance to experience, learn, and network with distinguished executives and government influencers at this exclusive, one-day interactive congress.

The **Strategic Investment Summit: USA** is targeted at the executives of innovative, German businesses who are interested in learning more about investment opportunities in the United States, either as they look to expand existing R&D or manufacturing activities or before they enter the market for the first time. To ensure that we can assemble a pool of attendees who will get the maximum value out of this exclusive event, we kindly ask that you provide all of the requested information in our registration form.

Space is limited to help participants get the most value out of the day's sessions and to better facilitate a dialogue among decision makers. Tickets will be allotted on a first-come, first-served basis – register today!

We look forward to receiving your registration application, and we hope to see you in September!

Registration fee:

Global Success Club Members: € 350 + 19% VAT Non-members: € 450 + 19% VAT

Here is what your registration fee includes:
